

# DENİZ AYAS

## Front-end Developer

Izmir, Turkey | +90 534 720 09 05 | denizayaas@gmail.com

### PROFESSIONAL SUMMARY

Front-end Developer with 5+ years of professional experience building responsive, scalable, and user-focused web applications. Experienced in 60+ digital platform projects with strong knowledge of React.js, Next.js, JavaScript, responsive architecture, cross-browser compatibility, SEO-focused development, QA processes, debugging, and performance optimization.

### PROFESSIONAL EXPERIENCE

#### Front-end Developer | Demirören Medya | Remote

2023 - 2026

- Delivered front-end development, project planning, and design implementation for large-scale digital media platforms, including Milliyet, Hürriyet, CNN Türk, and Posta.
- Contributed to 60+ digital platform projects with a focus on responsive layouts, SEO compatibility, cross-browser support, and maintainable UI structures.
- Collaborated with design, QA, product, and development teams in remote and Agile workflows to ship high-quality user experiences.
- Supported debugging, manual testing, UI quality control, and performance improvements across content-heavy web products.

#### Front-end Developer | COSMIC | Project-based

2022 - 2023

- Built the front-end structure and product interface for Coosmic, a startup project providing solutions for designers and developers.
- Developed responsive UI components and contributed to product experience, interface requirements, and technical improvements.

#### Front-end Developer | Egegen | On-site

2021 - 2022

- Contributed to 20+ web projects by converting design requirements into responsive and cross-browser compatible interfaces.
- Developed reusable UI components and strengthened hands-on experience across varied client and product requirements.

#### Software Developer | OMKA Mühendislik | On-site

2019 - 2020

- Gained foundational experience in software development, object-oriented programming, and technical project preparation.
- Supported development tasks and contributed to project workflows with a focus on programming logic and software discipline.
